National Institute Of Technology, Calicut

08/2019 - Present   *8.31*

Courses
- **Data Structure & Algorithm, Networking, Operations System, DBMS**

Bachelors Of Computer Application (BCA)
Shree Umiya BCA College, Ahmedabad

07/2016 - 05/2019   *7.66*

PERSONAL PROJECTS

Waste Management (02/2021 - Present) ↗
- This app was made to **connect cleaning staff** and **students**.
- The students can **locate** the **nearby beans** and make a request to **clean** if it was not.
- On the other half, the cleaning staff gets the **notification** and cleans the bin. After that, the student can also give his/her **feedback** about it.
- There is also one **admin** who **manages** the cleaning staff, reads the **feedbacks**, and also takes action against the **complaints**.
- The tech stack which I had used was **Android** with **Java** and **Firebase** for the backend. Used **Mapbox** API for maps.

Fund Management (03/2021 - 04/2021) ↗
- This app was built to make the process of **allocating funds** to the **students** smooth.
- The students can **submit** their **expense** details and make a request for funds with some **documents**.
- When the Guide **approves** that **request** it goes to the HOD and **HOD** will finally approve it so the student can **get** their **funds**.
- The student will also receive the **notification** of their **request** in each stage.
- The tech stack which I used was **Android** with **java** and **Firebase** for the backend.

VOLUNTEER EXPERIENCE

Member Of Technical Team In Nakshatra 2020 (01/2019 - 02/2020)
Organized and lead 2 technical events . Blind Coding, Decoding

CERTIFICATES

Problem Solving (Intermediate) Certificate (09/2020 - Present) ↗

C (Intermediate) Certificate (09/2020 - Present) ↗

NDG Linux Unhatched (05/2021 - Present) ↗

ACHIEVEMENTS

6 star on HackerRank in Problem Solving ↗

788 reputation of Stack Overflow
3 Silver and 19 Bronze badges with 5K+ reach

858 Coding score on Geeks for geeks

How to Add Support Library to Android Studio Project? (06/2021 - Present) ↗
